## Mike Soloway Music & Motion for Children Ages 1 through 5

### ABOUT MIKE'S MUSICAL EVENTS:

Mike Soloway presents interactive musical events which inspire children to sing, dance, move, pretend and to feel the joy that comes from actively making and sharing music together.

In his show Mike leads children through a diverse repertoire of traditional and contemporary songs, dances and fingerplays which make it fun for them to guide their own actions, develop self-control and take part in our rich cultural heritage of children's music. He keeps kids moving from the first note to the last and leaves them with a smile on their face and a song in their heart.

Programs are tailored to the age level of the children attending whether they are infants, toddlers, preschoolers or a combination thereof and Mike can accommodate groups of just a few to a hundred or more.
